

MiniMe P10 & P12

Passive Tuned Powered Mini Subwoofer

	MiniMe P10	MiniMe P12
(H) Height w/ feet	12-1/8"	14-3/4"
(W) Width	12-1/4"	15"
(D) Depth	13-1/2"	16-1/4"

OBJECTIVE

In response to a huge number of requests for a quality-focused, small, powered subwoofer for larger rooms that are appropriate for the MiniMe, Earthquake has developed the MiniMe P10 and MiniMe P12.

The larger 10" and 12" MiniMe subwoofers have advanced magnet structures, massive dual layer voice coils and powered by Earthquake's 600-Watt energy efficient amplifiers. These subs are designed to fill any large room with deeper, more powerful bass than some larger more expensive subs.

INTENDED USE

- ✓ Contractors, Custom Installers & Retailers
- ✓ Rooms up to 22' x 32' x 8'
- ✓ Home Theaters & 2-Channel Music Systems
- ✓ Town Homes/Condos/Apartments
- ✓ RVs & Yachts

You can also depend on Earthquake's MiniMe P10 and MiniMe P12 to deliver the realistic excitement of home theater from the lowest extended musical bass notes possible to the detail and definition of a full blown orchestra. With their exquisite 7-layer piano black lacquer finish, tiny footprint and high fidelity sound, the MiniMe P10 and MiniMe P12 are the finest solution to any home

SPECIAL FEATURES & HIGHLIGHTS

- SLAPS patented passive radiator system
- Passive tuned design for unmeasurable accuracy
- 600-Watt class "D" powered amplifier with automatic signal-sending turn-on and stand-by mode for longer life, more efficiency and less power consumption (greener)
- Sub operation switch for different ranges
- High gloss multi layer piano black or white lacquer finish for a mirror shine
- Long throw, premium quality drivers
- Operation status LEDs
- RCA & high level inputs
- Selective variable crossover
